## SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headacha, dirriness, duliness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system like a telegraph system, and the nerves which convey the nerve force from the nerves which convey the nerve force from the body, just as the electric current is conveyed, along the telegraph for early hysicians fail to regard this fact; instead of treating the nerve can be forced for the cause of the disorders arising theorem.
